DETAILED ACTION

Claim Rejections - 35 USC § 103

1. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

2. Claims 2-5 rejected under 35 U.S.C. 103(a) as being unpatentable over Hasebe et al. (2003/0027613) in view of De Jonghe et al. (6,911,280) further in view of Williams et al. (5,254,415)

Regarding Claims 2-5, Hasebe et al. disclose a laser gun and shooting system for the same where in Fig. 7 it is disclosed a laser generating device including laser 34 and battery 31 and means for attaching generating laser generating device 7 to the target plate. Hasebe et al. fail to disclose the required battery for the laser generating device and the required fluid electrolyte/electrode configuration. However, De Jonghe et al. disclose a chemical protection of lithium surface where in Fig. 4, electrolyte fluid separated from electrode 414 by chemical protection surface 408. Furthermore, Williams et al. disclose a stacked cell array bipolar battery with thermal sprayed container and cell seal where in claim 1, the required fluid electrolyte and electrode configuration is disclosed.

It would have been obvious to one of having ordinary skill in the art at the time the invention was made to include the required battery for the laser generating system and the required fluid electrolyte/electrode configuration in Hasebe et al. as taught by De
